# 2025 CATALOG OF PROGRAMS

### ACCEPTED BY: CAP, CMS, COLA, TJC

ISO Accredited by A2LA: Cert. #3094.01 - see p. 8

INNOVATIVE SOLUTIONS. TECHNICAL EXCELLENCE.

American Proficiency Institute

# Technical expertise. Responsive service. Constant innovation.

# We're proficient at all of them.

When it comes to proficiency testing, reliability is everything. You need a provider that fully supports you with technical expertise and prompt, personal service. At API, we work with over 20,000 laboratories, covering all areas of laboratory medicine. Impressive numbers, for sure. But our reputation as a leader has grown because we are committed to providing the best customer service in the industry. We handle each contact promptly and professionally, so you don't wait for answers. Our technical experts fully understand the laboratory so they can assist you with a wide range of needs. We also provide automated result transmission, creative online services, and free Continuing Education credits.

The end result? With API, you have people and results you can rely on to meet all your proficiency testing needs.

### Proficiency Testing Excellence

Ensure reliable, accurate results through regular assessments to meet your compliance needs.

### World-Class Service

Access to prompt and personal technical expertise covering all areas of the clinical lab.

### Comprehensive Menu

200+ programs for a range of laboratories from small clinics to large hospital systems.

### Streamline Your Workflow

Save time and eliminate the #1 cause of PT failures clerical errors - with DataDirect.

# **API DataDirect** ELIMINATE THE #1 CAUSE OF PROFICIENCY TESTING FAILURES, CLERICAL ERRORS!

Manual entry of proficiency testing results is a time-consuming process and prone to errors. DataDirect utilizes the ability of your LIS to run a report and create a data file which is then uploaded onto API's website. This process removes the need for manual entry, saves time, and eliminates the number one cause of proficiency testing failures, clerical errors!

### The process is simple

API DataDirect is the future of proficiency testing, eliminating clerical errors in data entry to help you focus on the work that really matters.

COUNTLESS CLERICAL ERRORS AVOIDED

**80 HOURS** SAVED EACH YEAR

### **Enrollment Information**

### Enrollment

1. Use this catalog to select the programs you need and record the selections on the order form. Please follow the instructions below to complete the form.

Make sure to include:

- a. Shipping Address
- b.Billing Address (if different than shipping address)
- c.Regulatory Information (CLIA number, CAP, TJC, or COLA, etc.)
- d.Payment Method: If paying by check, mail to: American Proficiency Institute P.O. Box 7592 Carol Stream, IL 60197-7592
- 2. Ensure the "TOTAL" includes the \$150 Annual Enrollment fee which covers shipping, administrative costs of setting up customer files, data processing, and reports.
- 3. To Order:
  - a. Email your completed order form to CustomerService@api-pt.com
  - b. Fax the order form to us at 855-900-6119
  - c. Mail orders to: American Proficiency Institute P.O. Box 7592 Carol Stream, IL 60197-7592
- 4. After processing your order, we will send you an "Order Confirmation" showing products ordered and pre-set shipping dates:
  - a. Mark your calendar with the shipment dates. If your kit does not arrive by the end of that week, please contact us immediately. If you do not contact us by the posted replacement deadline to notify us that you have not received your kit, we may not be able to accommodate a replacement kit.
  - b. Inspect your kit immediately upon receipt. Please note that while most of our samples require refrigeration upon receipt, as indicated on the box, many times there are mixed storage temperature requirements (including refrigerate, freeze, or room temperature). It is important that you inform anyone receiving the kit that they must open the kit upon arrival to determine proper storage conditions for each enclosed module. Call us within 3 days if any sample is missing or damaged to request a replacement. Please call prior to discarding any damaged samples or refusing a kit.
  - c. Read the instructions carefully before beginning a test. Some samples require special handling before testing.
  - d. Keep a copy of any result forms mailed to API.

### **Partial Year Orders**

API makes every effort to accommodate new orders or order changes throughout the year. Except for the annual enrollment fee, we will prorate the prices for orders received after the first shipment.

### Cancellations

We will credit any charges for unshipped specimens if we receive notification four weeks prior to the next shipment. In accordance with our cancellation policy, all credits expire within 120 days of the credit memo date. The annual enrollment fee is nonrefundable.

## International and Non-Continental U.S. Customers

API is able to service many international locations and non-continental U.S. customers. Some locations, including the state of Hawaii, U.S. territories and commonwealths, as well as international locations, may require import permits for API shipments. Local authorities can assist you in determining if any permits are required for your location. Please note: It is the responsibility of the testing facility to obtain any required import permits.

Additional shipping charges for international and non-continental U.S. locations may apply. Please contact Customer Service at GlobalCustomerService@api-pt.com for more information.

Call us at 800-333-0958 and speak with a Customer Service Representative with any questions you may have about placing your order.

### **Program Highlights**

### **API Proficiency Testing Programs are CAP Accepted!**

We are pleased to report that the College of American Pathologists continues to accept proficiency testing programs from the American Proficiency Institute. This means CAP accredited laboratories can use API's proficiency testing programs except where indicated by a solid black triangle ( $\blacktriangleright$ ) next to an analyte. Please refer to the index on pages 130 through 135 for a complete listing of CAP accepted analytes. API programs are also accepted by CMS, COLA, TJC, and state regulatory agencies including New York state.

### **API is ISO Accredited!**

We are proud to be accredited as a proficiency testing provider to the requirements of ISO/IEC 17043:2010. We are accredited by the American Association for Laboratory Accreditation (A2LA) under certificate number 3094.01 (www.A2LA.org). A2LA is a signatory to the ILAC Mutual Recognition Arrangement (MRA) which provides global recognition of PT accreditations. Programs included under the scope of this accreditation are marked with a  $\checkmark$  in this catalog.\* Evaluations for accredited analytes can be used by ISO 15189-accredited laboratories to fulfill PT requirements.

\*Printed versions of the catalog may not have the most current scope of information; please see online catalog for current status.

### **Track Proficiency Performance using API DataDashboard**

With API's DataDashboard, laboratories or those managing groups of laboratories can quickly and easily view proficiency testing performance over the most recent six test events. The dashboard includes trend data by analyte, percentage of acceptable results compared to all API labs, failure count by test event, and analytes with unsatisfactory performance. Another option allows you to download spreadsheets of PT performance data. Customers can log in to their API Paperless PT account to access their dashboard. Contact us at TechSupport@api-pt.com or call us if you need assistance.

### **Automated Proficiency Results with API DataDirect**

Using their laboratory information system (LIS) or middleware, laboratories may now upload proficiency testing results directly to API, a process that revolutionizes proficiency testing for clinical laboratories. No more manual data entry, no more clerical errors, no new technology systems to purchase, and no additional fees! DataDirect is easy to use and saves time! Contact us at DataDirect@api-pt.com or call us for a demonstration and free Test Drive.

# If you have any questions or need assistance with ordering, please email CustomerService@api-pt.com or call us at 800-333-0958.

# Visit our website, api-pt.com, to view our catalog and full shipping and reporting schedule.

<b>Program Description</b> 2 mL lyophilized - Testosterone in #1 fulfill CMS and CAP requirements.	71 is not scored for CMS or reported	d to CAP. Enroll in #180 - Immunoassay on page 20 to
171 SHBG and Testosterone ~		
Analytes		
Sex Hormone Binding Globulin Testosterone, bioavailable	Testosterone, free	► Testosterone, total
<b>Format</b> 3 samples x 2 shipments	<b>Chemistry Miscellaneous Shipments</b> April 14-15, October 6-7	

### Therapeutic Drugs

### **Program Description**

5 mL serum - For Anti-epileptic Drugs, see #190 on page 12. For Immunosuppressive Drugs, see #189 on page 21.

132 Therapeutic Drugs 🗸

- 136 Therapeutic Drugs Add on option to #121 or  $122 \checkmark$
- A36 Therapeutic Drugs Verification Program

### **Analytes**

Acetaminophen	► Lidocaine	Theophylline
Amikacin	Lithium	Tobramycin
► Caffeine	<ul> <li>Methotrexate</li> </ul>	Valproic Acid
Carbamazepine	Phenobarbital	Vancomycin
Digoxin	Phenytoin	
Gentamicin	Salicylates	
Format	<b>Chemistry Core Shipments</b>	
5 samples x 3 shipments	January 13-15, May 5-7, August 18-20	

### **Thyroid - Special**

### **Program Description**

0.75 mL serum - Designed for OCD Vitros analyzers.

# 175 Thyroid - Special × Analytes Triiodothyronine (T3) Free T3 Ta Uptake Triiodothyronine (T3) Free T4 Thyroxine (T4) TSH Format 5 samples x 3 shipments January 13-15, May 5-7, August 18-20

### Tumor Markers

<b>Program Description</b> 2 mL serum		
183 Tumor Markers 🖌		
Analytes		
Beta-2 Microglobulin	CA 27.29	PSA, total
CA 125	CEA	PSA (free/total ratio)
CA 15-3	PSA, complexed	Thyroglobulin
CA 19-9	PSA, free	
<b>Format</b> 5 samples x 3 shipments	<b>Chemistry Core Shipments</b> January 13-15, May 5-7, August 18-20	

### URINE CHEMISTRY AND BODY FLUID ANALYSIS

### Acute Kidney Injury Risk Assessment

### **Program Description**

1.5 mL lyophilized simulated urine - For use with the NEPHROCHECK test system.

186 Acute Kidney Injury Risk Assessment

### Analytes

AKI Risk Score (IGFBP-7 \* TIMP-2)

### Format

3 samples x 2 shipments

**Chemistry Miscellaneous Shipments** April 14-15, October 6-7

### **CSF & Body Fluid Chemistry**

### **Program Description**

2 mL simulated cerebrospinal fluid - 3 samples; 3 mL simulated body fluid - 3 samples. For manual cell count and body fluid crystals, see #277 - Cell Count & Body Fluid Crystals on page 39.

177 CSF & Body Fluid Chemistry ~

### Format

Cholesterol

6 samples x 2 shipments

**Chemistry Miscellaneous Shipments** April 14-15, October 6-7

### **CHEMISTRY -** URINE CHEMISTRY & BODY FLUID ANALYSIS

### Ethyl Glucuronide

**Program Description** 5 mL urine - For qualitative testing.

148 Ethyl Glucuronide 🗸

### **Analytes**

Ethyl glucuronide (EtG)

### Format

3 samples x 2 shipments

**Chemistry Miscellaneous Shipments** April 14-15, October 6-7

### Lamellar Body Count

### **Program Description**

2 mL liquid - For lamellar body counts performed on Hematology analyzers.

208 Lamellar Body Count 🗸

### **Analytes**

Lamellar Body Count

### Format

3 samples x 2 shipments

### **Chemistry Miscellaneous Shipments** April 14-15, October 6-7

### Microalbumin

### **Program Description**

3 mL urine - For semi-quantitative dipstick or quantitative analysis. Recommended for Afinion users. For laboratories performing additional urine chemistry analytes, see #143-Urine Chemistry on page 29.

236 Microalbumin 🗸

### **Analytes**

Microalbumin

Urine Creatinine

### Format

3 samples x 2 shipments

**Chemistry Miscellaneous Shipments** April 14-15, October 6-7

### **CHEMISTRY -** URINE CHEMISTRY & BODY FLUID ANALYSIS

Sweat Analysis		
<b>Program Description</b> 3 mL liquid - For sweat analysis.		
163 Sweat Analysis		
Analytes		
► Chloride (qualitative)	► Conductivity	Sodium
► Chloride (quantitative)	Osmolality	
<b>Format</b> 3 samples x 2 shipments	<b>Chemistry Miscellaneous Shipm</b> April 14-15, October 6-7	nents

### **Urea Breath Test**

### **Program Description**

2 paired sets of air filled sample bags - For the detection of urease associated with *H. pylori* from breath samples. For use with the Meridian Breath ID platform.

193 Urea Breath Test

### **Analytes**

Urease

### Format

2 paired samples x 2 shipments

**Chemistry Miscellaneous Shipments** April 14-15, October 6-7

Urine Adulteration Test		
<b>Program Description</b> 10 mL urine - Qualitative or quantitative tests for urine adulteration. For Urine Drug Screen see #139 on page 29.		
146 Urine Adulteration Test ~		
Analytes		
Creatinine Nitrite	Oxidants pH	Specific Gravity
<b>Format</b> 3 samples x 2 shipments	<b>Chemistry Miscellaneous Shipm</b> April 14-15, October 6-7	ients

### **Urine Chemistry**

### **Program Description**

10 mL urine - For laboratories performing only microalbumin and/or urine creatinine, or who are using the Afinion analyzer, see #236 - Microalbumin on page 27.

### 143 Urine Chemistry ✓

### **Analytes**

Amylase	Microalbumin	Total Nitrogen
Calcium	Microalbumin/Creatinine Ratio	Total Protein
Chloride	Osmolality	Urea Nitrogen
Creatinine	Phosphorus	Uric Acid
Glucose	Potassium	
Magnesium	Sodium	
Format	Chemistry Miscellaneous Shipments	

3 samples x 2 shipments

April 14-15, October 6-7

### **Urine Drug Screen**

### **Program Description**

10 mL urine - Qualitative or quantitative tests for urine drug screen.

Urine Drug Screen 🗸 (qual) 139 A39 Urine Drug Screen - Verification Program

### **Analytes**

6-Acetylmorphine	Cocaine Metabolites	Methamphetamines
Acetaminophen	Cotinine	Methaqualone
Alcohol	EDDP	Opiates
Amphetamines	Fentanyl	Oxycodone
Barbiturates	Hydrocodone	Phencyclidine
Benzodiazepines	LSD	Propoxyphene
Buprenorphine	MDMA	Tramadol
Cannabinoids	Meperidine	Tricyclic Antidepressants
Carisoprodol	Methadone	Zolpidem

### **BLOOD CELL IDENTIFICATION**

### 2025 CLIA Hematology Update

Beginning January 1, 2025, scores are required to be reported to CMS for both Blood Cell Identification and White Blood Cell Differential by automated methods. Laboratories no longer need to make a choice of which score to report to CMS; API will automatically report all scores for analytes in bold print. If you are also enrolled with another provider and are enrolling with API for additional testing, please contact Technical Support at 800-333-0958 or TechSupport@api-pt.com.

### **Blood Cell Identification**

### **Program Description**

Two Wright stained peripheral blood smears for blood cell identification. One case study will include 5 annotated cells/objects for identification and will be scored for CMS. The second case study is educational and will include 5 cells/objects for identification with a manual 100 WBC differential and platelet estimate. #224 is a virtual program and does not include printed photographs. To receive printed photographs, order #286. Please Note: Laboratories ordering only virtual programs must access paperwork and images online. For competency, see Q24 - Blood Cell Identification - Competency on page 129.

## **Microbiology PT Requirements**

CLIA requires laboratories performing microbiology tests that are regulated for proficiency testing to test five regulated challenges per test event in each subspecialty where regulated testing is performed. The five subspecialties are Bacteriology, Mycobacteriology, Mycology, Parasitology, and Virology.

As part of this requirement, the PT results reported by laboratories must reflect the extent of testing performed on patient samples. Laboratories are instructed to report results for microorganism detection or identification to the highest level that they report on patient specimens, to ensure their PT is as specific as results reported on patients.

All non-waived tests in a sub-specialty can be combined to meet the five-challenge requirement. Regulated tests are indicated in bold type. Challenges tested with waived methods (e.g., Rapid Group A Strep) cannot be included in the five regulated challenges. Furthermore, if one of your methods becomes waived or you change to a waived method midyear, you are responsible for ensuring you maintain five challenges per test event for the remaining non-waived tests in that sub-specialty.

Programs listed that have fewer than five samples are to be used as add-on options to other programs in the same sub-specialty.

Each sample tested for antimicrobial susceptibility counts as one challenge regardless of the number of drugs reported.

Urine colony count is not a regulated test and cannot be included as one of the five challenges.

- Direct observation checklist
- Problem solving assessment quiz
- Frequent ship dates available to help laboratories stay up to date with competency assessments

# **Blood Cell Identification - Competency**

#### **Program Description**

One virtual Wright stained peripheral blood smear for blood cell identification. The case study will include 5 annotated cells/objects for identification with a manual 100 WBC differential.

Q24 Blood Cell ID - Competency

#### **Analytes**

**Blood Cell Identification** 

Manual Differential

**Format** 1 virtual image **Shipping Dates** Available upon request

# **Blood Gas - Competency**

#### **Program Description**

Ten identical 3 mL ampules - For combination blood gas/electrolyte analyzers.

Q11 Blood Gas - Competency

#### **Analytes**

BUN	Lactate	Potassium
Calcium, ionized	Magnesium, ionized	Sodium
Chloride	pCO <sub>2</sub>	tCO <sub>2</sub>
Creatinine	рН	
Glucose	pO <sub>2</sub>	
Format	Shipping Dates	
10 samples	Available upon request	

# **Body Fluid Microscopy - Competency**

#### **Program Description**

Virtual images for the identification of crystals and other formed elements/cells in pleural, peritoneal, or pericardial fluid.

Q13 Body Fluid Microscopy - Competency

#### **Analytes**

Identification of formed elements

Format 2 - 5 targets **Shipping Dates** Available upon request

# **CSF - Competency**

#### **Program Description**

Virtual images for the identification of crystals and other formed elements/cells in CSF.

Q14 CSF - Competency

#### **Analytes**

Identification of formed elements

#### Format

**Shipping Dates** 

2 - 5 targets

Available upon request

# **Fecal Occult Blood - Competency**

#### **Program Description**

One 1.5 mL positive simulated stool - For guaiac or immunoassay methods.

Q22 Fecal Occult Blood - Competency

#### Analytes

Fecal Occult Blood

Format

1 sample

**Shipping Dates** Available upon request

# Fern Test - Competency

#### **Program Description**

Two virtual images for the presence or absence of ferning.

Q28 Fern Test - Competency

#### **Analytes**

Fern Test

Format

2 virtual images

**Shipping Dates** Available upon request

# **Gram Stain - Competency**

#### **Program Description**

Two virtual images of Gram stained direct smears from various sources such as blood, sputum, CSF, and wound.

Q35 Gram Stain - Competency

# Analytes

Gram Stain	Sputum Quality	Stain Quality	
Leukocytes			
Format	Shipping Dates		
2 virtual images	Available upon request		

# **Group A Strep Antigen - Competency**

#### **Program Description**

Ten positive swabs - For rapid Group A Strep antigen detection kits. Program not compatible with molecular methods.

Q32 Group A Strep Antigen - Competency

#### **Analytes**

Group A Strep Antigen

#### Format

10 samples

**Shipping Dates** 

Available upon request

# i-STAT Chemistry - Competency

#### **Program Description**

Ten identical 3 mL ampules - For i-STAT analyzers.

Q12 i-STAT Chemistry - Competency

#### **Analytes**

-		
Calcium, ionized	Hemoglobin	Potassium
Chloride	Lactate	Sodium
Creatinine	pCO <sub>2</sub>	tCO <sub>2</sub>
Glucose	pH	Urea Nitrogen (BUN)
Hematocrit	pO <sub>2</sub>	
Format	Shipping Dates	

10 samples

Available upon request

# Influenza A&B - Competency

#### **Program Description**

One 1 mL influenza A positive liquid sample and one 1 mL influenza B positive liquid sample - For antigen detection kits and most molecular methods.

Q31 Influenza A&B - Competency

#### **Analytes**

Influenza A

Influenza B

Format 2 samples **Shipping Dates** Available upon request

# **RSV - Competency**

#### **Program Description**

One 1 mL RSV positive liquid - For antigen detection kits and most molecular methods.

Q33 RSV - Competency

#### Analytes

RSV

#### Format

1 sample

Shipping Dates

Available upon request

# SARS-CoV-2 (molecular) - Competency

#### **Program Description**

Ten positive swabs - For detection of SARS-CoV-2 by molecular methods. Contains the whole genome and includes variants of concern.

Q34 SARS-CoV-2 (molecular) - Competency

#### **Analytes**

SARS-CoV-2

#### Format

1 sample

**Shipping Dates** Available upon request

## **Sperm - Competency**

#### **Program Description**

Two virtual images for the presence or absence of sperm.

Q27 Sperm - Competency

#### **Analytes**

Sperm

**Format** 2 virtual images Shipping Dates Available upon request

# **Synovial Fluid - Competency**

#### **Program Description**

Virtual images for the identification of crystals and other formed elements/cells in synovial fluid.

Q15 Synovial Fluid - Competency

#### **Analytes**

Identification of formed elements

#### Format

2 - 5 targets

**Shipping Dates** Available upon request

# **Urinalysis & HCG - Competency**

#### **Program Description**

One 10 mL urine - For dipstick analysis and urine hCG methods. Program is not compatible with Iris iChem, iVelocity, and vChem dipstick analysis.

Q21 Urinalysis & HCG - Competency

#### **Analytes**

Bilirubin	HCG	Protein
Bilirubin, confirmatory	Ketones	Protein, confirmatory
Blood/Hemoglobin	Leukocyte Esterase	Reducing Substance
Creatinine	Nitrite	Specific Gravity
Glucose	рН	Urobilinogen
Format	Shipping Dates	

1 sample

**Shipping Dates** Available upon request

# **Urine Sediment - Competency**

#### **Program Description**

Two virtual images for identification of formed elements in urine sediment.

Q26 Urine Sediment - Competency

#### Analytes

Identification of formed elements

#### Format

2 virtual images

**Shipping Dates** Available upon request

# Vaginal Wet Prep - Competency

#### **Program Description**

Two virtual images of Vaginal Wet Prep and two virtual images of Vaginal Wet Prep with KOH.

Q25 Vaginal Wet Prep - Competency

#### **Analytes**

Vaginal Wet Prep

Vaginal Wet Prep (KOH)

# FormatShipping Dates4 virtual imagesAvailable upon request

# CE Credits, Automated Results, and Other Products and Services

# **Free Continuing Education Credits**

Physicians, medical laboratory scientists, and medical laboratory technicians enrolled with API are eligible to earn FREE continuing education credit through online self-assessment activities offered in conjunction with the American Society for Clinical Pathology (ASCP). The number of credits that can be earned depends on individual participation. For more information, go to our website at api-pt.com and select "Learn More" under the Continuing Education heading, or call us at 800-333-0958 to speak with a Customer Service Representative.

# **API DataDirect**

Using their own laboratory information system (LIS) or middleware, laboratories may now transmit proficiency testing results directly to API, a process that revolutionizes proficiency testing for clinical laboratories. No more manual data entry, no more clerical errors, no new technology systems to purchase, and no additional fees! DataDirect is easy to use and saves time! Contact us at DataDirect@api-pt.com or call us for a demonstration.

# **Remedial Proficiency Testing**

Remedial proficiency testing is a service API offers to those who need to test specimens in addition to regular proficiency testing. This is usually required when a laboratory has had poor performance on a particular analyte in two of three test events. If your laboratory encounters a need for this service (which includes a written performance evaluation), call to speak with a Technical Specialist for more details. Remedial evaluations are not included in our A2LA scope of accreditation.

# **Troubleshooting Samples**

Occasionally, laboratories wish to re-test a proficiency testing sample as part of a corrective action plan. Most API samples are available for this purpose at a nominal charge. Our Technical Specialists can give you further information.

# **Supplemental Products**

957 API Binder with Tabs 958 Tabs only

# **Verification Programs for Multiple Instruments**

CLIA regulations state that if a laboratory uses multiple methods to test an analyte they must designate one instrument/method as primary for the proficiency event and test the PT samples using that instrument/ method. Laboratories are not to test proficiency samples during the PT event with more than one instrument unless that is how they test all patient specimens. This restriction also applies to non-regulated analytes and to analytes categorized as waived under CLIA.

Laboratories may test proficiency samples with multiple instruments/methods after the PT due date. API's Verification programs offer the convenience of using proficiency samples and statistics to verify secondary instruments and methods, while remaining compliant with CLIA regulations. Verification samples are shipped along with PT samples. Laboratories are directed to test after the PT due date and submit results for verification samples online. Verification evaluations are available online, when the evaluations for proficiency programs are released.

Where available, Verification programs are listed in the main body of the catalog along with regular PT programs. Scores from Verification programs are not reported to regulatory agencies such as CMS, CAP, or The Joint Commission. Verification programs are not included in our A2LA scope of accreditation.

# **Outstanding Online Features and Services**

Paperless Proficiency Testing has unique features that can help you manage your proficiency testing more efficiently. Visit www.api-pt.com to learn more!

- Email is sent with shipping dates, package tracking information, and when your evaluation is ready.
- Submit, review, and print results online.
- DataDashboard trends performance over the most recent six test events.
- Free Continuing Education credits.
- Management reports for multiple labs.
